Q. what is a chaotic field theory?

A. say it three times

Bernoulli coin flip

what serves here is the stage 1 of an introduction to the
spatiotemporal cat^a

which is the simplest example of
spatiotemporally chaotic field theory^b

^aP. Cvitanović and H. Liang, *Spatiotemporal cat: a chaotic field theory*, In preparation, 2021.

^bM. N. Guderoff et al., *Spatiotemporal tiling of the Kuramoto-Sivashinsky flow*, In preparation, 2021.

a motivation : need a theory of **large** fluid domains

pipe flow close to onset of turbulence ¹

we have a detailed theory of **small** turbulent fluid cells

can we can we construct the **infinite** pipe by coupling small turbulent cells ?

what would that theory look like ?

¹M. Avila and B. Hof, Phys. Rev. **E 87** (2013)

the goal

build
a chaotic field theory
from
the simplest chaotic blocks

using

- time invariance
- space invariance

of the defining partial differential equations

take-home :

harmonic field theory

tight-binding model
(Helmholtz)

chaotic field theory

Euclidean Klein-Gordon
(damped Poisson)

take-home :

harmonic field theory

oscillatory eigenmodes

chaotic field theory

hyperbolic instabilities

Mephistopheles knocks at Faust's door and says, "Du mußt es dreimal sagen!"

- "You have to say it three times"
— Johann Wolfgang von Goethe
Faust I - Studierzimmer 2. Teil

- 1 coin toss
- 2 temporal cat
- 3 spatiotemporal cat
- 4 bye bye, dynamics
